

MatLab Installation Guide

Obtaining MatLab

This most up to date document about obtaining and licensing Mat lab is available via the link:

http://servicecatalog.nyumc.org/Documents/mcit_matlab_installation.pdf

Eligibility

MatLab is provided to NYU Langone Medical Center users as part of a Total Academic Campus license. A network connection is required for installation, but not necessary to run the application afterwards except for license renewal annually. The campus license only covers faculty, staff, and researchers. This includes both computers on-campus and portable computers. Students who are not part also part of a research lab or considered staff/faculty are not eligible to use the Mathworks license.

System Requirements

Full system requirements for Linux, Mac, and Windows are available from Mathworks at:

http://www.mathworks.com/support/sysreq/current_release

In addition to those requirements the following is required:

- Network connection during installation and activation
- Valid nyu.edu or nyumc.org e-mail address

Setting Up a Mathworks Account to Install MatLab

In order to obtain mathworks you must have an email account that ends with nyu.edu or nyumc.org.

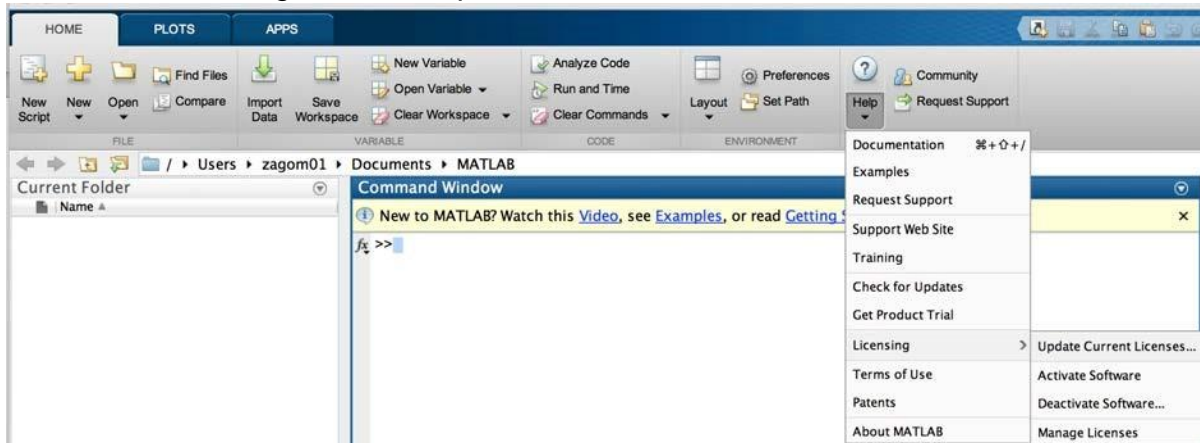

1. Goto Mathworks.com and signup for an account on Mathworks.com by clicking on Create an account (make sure the option is selected that the account is associated with a campus agreement)
2. A verification email will be sent in which a link will need to be clicked on in order to verify the account.
3. Once the account has been verified, login to the MathWorks account
4. Under "Account Services" click on the link to associate the account
5. Click on "Add License" and select "activation key" and then click Continue
6. Enter the activation key: **14586-94105-76174-90508-31255**
7. Follow the prompts to complete the signup process.
8. Download MatLab directly from the MathWorks website and activate it using your Mathworks account. Your mathworks account will be used for all activations and can be used to obtain new versions of MatLab as they come out.

Re-activation of MatLab

MatLab can expire if it has not connected to the network recently or the expiration date for MatLab's annual license has passed without MatLab activating again.

To manually re-activate a license:

1. Open MatLab
2. Click the Help toolbar item.
3. Click Licensing and then Update Current Licenses...

4. Click the Update button and when asked if you wish to overwrite the existing license click Yes. When finished click the OK button and then the Close button to exit the License Update window.

Requesting Assistance

If you require help installing the downloaded software open an incident via MCIT self service: <http://servicecatalog.nyumc.org/Pages/default.aspx>
